Scope of Work for Transportation of 45613 under CLIN 3007 Task Order

HSCG23-09-J-ARP244

Delivery of Hull 45613 to OCONUS location Maui, Hawaii

1. [Orig] Background

- 1.1. [Orig] The Government has selected Maui, Hawaii, Coast Guard District Fourteen, as the delivery location for Hull 45613. As indicated by Section F.3.3. Marinette Marine Corporation is only required to deliver the RB-Ms within the 48 contiguous states.
- 1.2. [Orig] This Scope of Work only covers the additional charges necessary to ship the RB-M from the continental U.S. to Maui, HI. Any costs associated with shipping Hull 45613 to a location within the contiguous continental US, and the costs associated with unloading Hull 45613 and preparing it for Acceptance Trials is considered original scope.
- 1.3. [Orig] The Government has identified that commercial shipping between CONUS and Maui will require the RB-M to be shipped by either trailer or cradle. If the Contractor chooses to ship by cradle, the Government will not be responsible of the cost associated with manufacturing a cradle and the Contractor will retain the cradle after use.
- 1.4. [Orig] This Scope of Work also covers any additional travel charges incurred to conduct Acceptance Trials in accordance with Statement of Work (SOW) Section 092-6 in Maui, HI. The Contractor is reminded that only an incremental increase associated with travel to Maui is chargeable under this task, and any such costs must be clearly delineated within the invoice as an increase over that which would have been incurred by conducting the tests in the Continental U.S.

2. [Orig] Requirements

- 2.1. [Orig] This delivery shall be conducted in accordance with the Contract requirements, except the first sentence of SOW 084-1.2 shall be modified, for this shipment only, as follows: "The Contractor shall deliver the RB-M to a Contractor selected location that is within a 20 nautical mile in-water transit of Coast Guard Station Maui, HI."
- 2.2. [Orig] As required by SOW section 092-6.3, the Contractor shall be responsible to conduct Acceptance Underway Trials in Maui, HI.
- 2.3. [Orig] Due to the additional time required for transit from the Continental U.S. to Maui, HI, the Government will approve a revision to the Integrated Master Schedule (CDRL 041-005) for RB-M 45613 to account for this additional scope. Please propose a modified delivery date in your next monthly submission for CDRL 041-005 and CDRL 041-006.
- 2.4. [Orig] In the event the Contractor identifies charges other than shipping and travel related to this OCONUS delivery, prior approval is required from the Contracting Officer.
